Supporting our clients during the COVID-19 pandemic

At Notch, we are a people-focused business and supporting our clients is always our main focus. Though the COVID-19 situation is continually changing, we have contingency plans in place to support our clients if the situation escalates.

The safety of our staff is important to us, so appropriate precautionary measures have been taken to minimise health risks. We have made the decision that all staff will be able to work remotely until further notice.

All of our staff are equipped with the required capabilities and training to work effectively from separate locations. In addition, as we work collaboratively on all of our accounts, we already have systems in place to prevent any disruption due to staff absence.

Therefore, we anticipate no impact to project timelines and we look forward to continuing business as usual.

We would like to reassure you that we are following the most up-to-date government guidelines and are fully prepared to adapt our strategies as necessary.

Please email info@notchcommunications.co.uk if you have any questions.
